**5 Team Building Programs you won't be  
able to do without us!**

## SO WHY IS TEAM BUILDING MORE THAN JUST A WEEKEND ACTIVITY?

---

Team building has come a long way in the last 25 years. From 60-90 minute activities to flashy 2-4 hour programs that mirror reality tv shows, we have seen it all.

But amongst all the change there has been one thing that has stayed the same. The 3 fundamental factors that make an activity a TRUE team building program and not just another fun weekend activity you can do with your family and friends.

### **Outcomes**

Although many team building programs present ideas and scenarios vastly different from our everyday lives, a TRUE team building program will address or highlight specific outcomes around team performance, connection to company values, conference themes and connect the behaviours or experiences to that of the everyday workplace

### **Facilitated Discussion**

This can take on many different levels and is very much dependent on the depth of discussion you would like your facilitator to go into with your team. No matter what depth of discussion you desire a TRUE team building program will touch on and draw parallels to the workplace to ensure your team walk away with not only a positive and fun experience but also some level of understanding on how it will benefit them and their team.

### **FUN!**

We spend one third of our adult life in the workforce, so we definitely should be having fun whilst doing it! When we are happy, our bodies release endorphins. These chemicals make us more alert and put us in a better frame of mind to learn and absorb information. All TRUE team building programs put you in the best mindset to learn and create an environment of fun and laughter, that you team will remember for years to come.

So with all that in mind, we have come up with 5 unique team building activities that you won't be able to do on the weekend with family and friends!
